Date: 16/05/2023

Notice for Students
MBA II Semester

Subject: - Regarding SIG

All the students of MBA section A are hereby informed that their SIG (academic year 2022-23) is scheduled from 29/05/2023 (Monday) onwards 09:15 AM to 01:00PM on the topic "Research Report Writing Using SPSS".

The following instruction must be followed:

- 100% attendance is mandatory
- Timing must be followed strictly
- It is compulsory for all students.

For
29/05/2023

SIG: Research Report Writing with SPSS

Resource person: Dr. Reshu Agarwal

MBA- Second Semester (Section A)

Course Description (Theory, Practical and write-up sessions)

SN	Topics	Hours
1.	Introduction of research: Understanding the definition, importance of research, characteristics of a good research, steps involved and problem formulation, practical session	4
2.	Topics finalization and introduction writing: Groups formulation, topics finalization, details on how to write an opening paragraph of Introduction section, practical session	4
3.	Literature review: Submissions of topic-based introductions, definition, and purpose of LR, sources and characteristics of LR, types, steps involved and systematic writing of LR	4
4.	Literature review writing: In-Class writing: Students are supposed to write a systematic LR Learning ChatGPT, comparing both versions of LR and finalizing the most optimum content.	4
5.	Introduction of data and questionnaire: Data and its types, designing questionnaire and data collection	4
6.	Data handling and analysis in SPSS : Organization of the data collected, importing data into SPSS and understanding the data	4
7.	Write-up: Completion of methodology and data collection section, compilation of the results obtained, import various plots generated	4
8.	Write-up: Discussion of the results obtained and its analysis, future direction of the work, introduction of initial pages of the report, introduction of references and appendix sections	4
9.	First draft finalization: Students are supposed to interact as per their problems and doubts, finalization of first draft of research report.	4
10.	Completion of the report: Cover page, certificate page and acknowledgements, table of contents, list of figures, list of tables, Introduction finalization, Data collection, methodology and data analysis sections finalization, Results and discussions, future direction, references, and appendix section completion.	4

Reshu Agarwal

Reshu Agarwal

Day 6: Data handling in SPSS (4 Hours)

- a. Organizing the collected data
- b. Data import and its presentation
- c. Understanding the data and its two-way analysis

Day 7: Write-up (4 Hours)

- a. Completion of the methodology and data collection section
- b. Compilation of the results obtained

Day 8: Write-up (4 hours)

- a. Discussion of the results and its analysis
- b. Future direction of the work
- c. Introduction of initial pages of the report
- d. Introduction of references section and appendix

Day 9: First draft finalization (4 hours)

- a. Students are supposed to interact as per their problems and doubts
- b. Finalization of the first draft of the research report

Day 10: Completion of the report (4 Hours)

- a. Cover page, certificate page and acknowledgments
- b. Table of contents, list of figures, list of tables
- c. Introduction (with LR, statement of problems and expected outcome)
- d. Data collection (appendix: Questionnaire)
- e. Methodology/methodologies
- f. Data analysis
- g. Results and discussion
- h. References

Duration of Course:

1. Theory, hands-on and write-up practice: 40 hours
2. As an output, final reports will be submitted after 10 days of SIG ending date and will be assessed.

Learning outcomes of students:

After the successful completion of the course, students will be able to:

1. Write any scientific data-based report.
2. They will learn the hierarchy of report writing.
3. They will learn how to use SPSS for data handling and analysis.
4. They will generate a critical thinking for data and its analysis.
5. They will be able to convert their thought into conveying format.

NOTE: This is a 40-hour course which will consists of theory, hands-on training on SPSS, research report writing sessions along with submissions of their research reports for final exam/assessment.

SIG: Research Report Writing with SPSS

MBA II Semester: Section A

Resource person: Dr. Reshu Agarwal

Importance of Proposed SIG:

1. To make them aware of the process of scientific writing in the form of research report.
2. Understanding of literature review and systematic literature review writing.
3. Questionnaire designing and collection of primary data in various formats.
4. Analysis of the collected data using SPSS.
5. Understanding the data and its interpretation using statistical methods.
6. Presentation of the data in report in various formats.
7. Analysis the data and draw conclusions.
8. Learning compilation of the results and how to discuss those results in report.

Course Description (Theory and Practical)

Day 1: Introduction of research (4 hours)

- a. Understanding the definition
- b. Importance of research
- c. Characteristics of a good research
- d. Steps involved and objective formulation

Day 2: Topics finalization and introduction writing: (4 hours)

- a. Groups formation
- b. Topics finalization
- c. Details on how to write an opening paragraph of Introduction

Day 3: Literature review: (4 hours)

- a. Submissions of topic-based introductions
- b. Definition and purpose of literature review (LR)
- c. Sources and characteristics of LR
- d. Types, steps involved and systematic writing of LR

Day 4: Literature review writing: In-Class writing (4 hours)

- a. Students are supposed to write systematic LR
- b. Find out ChatGPT version of LR
- c. Comparison and collect the most concrete information in LR section

Day 5: Introduction of data and questionnaire (4 hours)

- a. Data and its types
- b. Designing questionnaire
- c. Data collection

SIG Completion Report : Research Report writing using SPSS

Class : MBA 1st Year

SIG Duration : 40 hours

Resource Person : Dr. Reshu Agarwal

The Special Interest Group (SIG) on **Research Report Writing Using SPSS** was successfully conducted for MBA 1st Year students.

Objectives:

1. To enhance students' understanding of research methodology and its applications.
2. To develop proficiency in using SPSS for statistical analysis.
3. To enable students to write effective and structured research reports.
4. To provide hands-on experience in analyzing and interpreting data.

Course Outcomes:

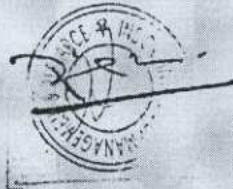

1. Students acquired a strong foundation in research techniques and statistical tools.
2. Participants developed the ability to use SPSS for data analysis and hypothesis testing.
3. Students gained skills in preparing clear, concise, and professional research reports.
4. Enhanced analytical and problem-solving capabilities applicable to academic and professional research.

Enrolment Details:

- **Number of Students Enrolled: 152**
- **Number of Students Completing the Course: 125**

The training covered comprehensive aspects of research methodology, statistical analysis, and SPSS software application, equipping students with practical skills in data analysis and report writing.

The feedback from participants was overwhelmingly positive, highlighting the effectiveness of the resource person and the relevance of the training content to their academic and professional needs.

List of topics that need to be covered to introduce new skills to the students: -

- I. **An overview of the Indian & Global Financial Markets-2 Hours**
 - What drives the markets
 - Interrelationship between Financial markets, Banking & Insurance
 - Career options
 - Skill set required
- II. **Fundamental Research-14 Hours (including 6 hours of practical)**
 - Dow theory: the mother of research
 - Knowing the company
 - Understanding key terms & ratios like P/E, BV2P, ROCE, ROE, D2E etc.
 - Studying quarterly & yearly results
 - Balance sheet, Cash flows & Shareholding pattern
 - Digging dip: Annual reports, Conference calls & Investor presentations
 - Sectoral Analysis: News, Views & govt policies
 - Data Analysis & Economic indicators
 - Taking the decision
 - Practical analysis through app
- III. **Technical Research-10 Hours (including 4 hours of practical)**
 - Introduction to technical charts
 - Understanding the terminology
 - Candlestick patterns
 - Key indicators: Inbuilt & Programmable
 - Various chart patterns
 - Technical report writing
 - Practical analysis through app
- IV. **Portfolio Management: The next level in career-2 hours**
 - Basics and do's & don'ts
- V. **Other career options in financial markets-2 hours**
 - Compliance
 - Marketing of financial products
 - Training
 - Content writing & Video making
 - Skill enhancement: taking various certifications

SIG Completion Report : Techno-Funda Analysis of Stocks through Technical Software

Class : UG 2nd Year

SIG Duration : 40 hours

Resource Person : Mr. Gaurav Katariya

Objectives:

1. To provide students with an in-depth understanding of technical and fundamental analysis of stocks.
2. To train students in using technical software for analyzing stock market trends.
3. To enable participants to make informed investment decisions based on data-driven insights.
4. To develop practical skills in financial analysis and market prediction.

Course Outcomes:

1. Students gained comprehensive knowledge of stock market analysis combining technical and fundamental approaches.
2. Participants learned to utilize technical software effectively for stock evaluation.
3. Students developed the ability to interpret market data and trends for informed decision-making.
4. Enhanced understanding of financial markets, empowering students to pursue investment-related opportunities.

Enrollment Details:

- **Number of Students Enrolled: 63**
- **Number of Students Completing the Course: 52**

The SIG on **Techno-Funda Analysis of Stocks** successfully achieved its objectives. The interactive sessions, led by Mr. Gaurav Katariya, provided students with practical exposure and valuable insights into stock market analysis. Participants appreciated the hands-on approach and the relevance of the content to real-world financial applications.

Subject: Python Programming

LESSON PLAN

UG Courses

Unit/Topic No.	Topic Name	No of Classes Required
I	Introduction	
1.1	History of Python	0
1.2	Need of Python Programming	1
1.3	Applications Basics of Python Programming Using the REPL(Shell)	1
1.4	Running Python Scripts	1
1.5	Variables	1
	Tutorial -I(Installation of Python)	1
1.6	Assignment	1
1.7	Keywords	1
1.8	Input-Output, Indentation	1
II	Types, Operators and Expressions:	
2.1	Types - Integers, Strings, Booleans;	0
2.2	Operators: Arithmetic Operators, Comparison (Relational) Operators	1
	Tutorial -I(How to work with Python)	1
2.3	Assignment Operators, Logical Operators, Bitwise Operators	1
2.4	Membership Operators, Identity Operators	1
2.5	Expressions and order of evaluations	1
2.6	Control Flow- if, if-elif-else	1
2.7	for, while	1
	Tutorial -I(Programs on Python Operators)	1
2.8	break, continue, pass	1
III	Data Structures	
3.1	Lists	0
3.2	Lists - Operations.	1
3.3	Slicing	1
3.4	Tuples	1
	Tutorial -I(Programs on Python Control Structures)	1
3.6	Sets	1
3.7	Dictionaries	1
3.8	Sequences, Comprehensions	1
IV	Functions	
4.1	Defining Functions	0
4.2	Calling Functions	1
	Tutorial -I(Programs on List)	1
4.3	Passing Arguments	1
	Keyword Arguments : Default Arguments	1
	Variable length arguments	1
	Anonymous Functions	1
	Print Functions(Function Return Values)	1
	Tutorial -I(Programs on Sets and sequences)	1
	Scope of the Variables in a Function - Global and Local	1

Handwritten signature

Handwritten signature

4.9	Modules: Creating modules, import statement	1
4.10	From: Import statement, name spacing	1
4.11	Python packages: Introduction to PIP	1
4.12	Using Python Packages, Installing Packages via PIP	1
	Tutorial -I(Programs on Functions)	1
V	Object Oriented Programming OOP in Python:	0
5.1	Classes	1
5.2	self variable	1
5.3	Methods	1
5.4	Constructor Method	1
5.5	Inheritance	1
	Tutorial -I(Programs on Functions with arguments)	1
5.6	Inheritance Examples	1
5.7	Overriding Methods	1
5.8	Data hiding	1
	Total No. of hours:	51

Handwritten signatures:

Roh

Questions

Q1. With Python programming examples to each, explain the syntax and control flow diagrams of break and continue statements. [Score]

Q2. Write a function to calculate factorial of a number

Q3. Explain the math operators in Python from highest to lowest Precedence with an example for each. Write the steps how Python is evaluating the expression $(5 - 1) * ((7 + 1) / (3 - 1))$ and reduces it to a single value.

Q4. List all the Comparison and Boolean operators in Python.

Q5. Define a Python function with suitable parameters to generate first N Fibonacci numbers. The first two Fibonacci numbers are 0 and 1 and the Fibonacci sequence is defined as a function F as $F_n = F_{n-1} + F_{n-2}$.

Q6. Write a python program to find the area of square, rectangle and circle. Print the results. Take input from user.

Q7. List and explain the syntax of all flow control statements with example. [Feedback]

Q8. Write a function that computes and returns addition, subtraction, multiplication, division of two integers. Take input from user.

Q9. What is list?

Q10. List any six methods associated with string and explain each of them with example.

Q11. Write about math package in Python

Q12. Write program examples about 10 built in function of math package in Python

SIG Completion Report : Python Fundamentals

Class : UG 3rd Year

SIG Duration : 40 hours

Resource Person : Mr. Vivek Gupta

Objectives:

1. To provide students with a strong foundation in Python programming.
2. To develop problem-solving and logical thinking skills using Python.
3. To introduce essential Python libraries for real-world applications.
4. To enable students to write efficient and error-free Python code.

Course Outcomes:

1. Students gained proficiency in Python syntax, data types, and control structures.
2. Participants developed the ability to create Python programs for solving basic and intermediate problems.
3. Students were introduced to libraries like NumPy and Pandas, enhancing their programming capabilities.
4. The course fostered analytical thinking and coding efficiency among students, preparing them for advanced programming challenges.

Enrollment Details:

- **Number of Students Enrolled: 96**
- **Number of Students Completing the Course: 80**

The SIG on Python Fundamentals successfully met its objectives, equipping students with the essential skills required for Python programming. The sessions, led by Mr. Vivek Gupta, were interactive and practice-oriented, enabling participants to apply theoretical knowledge in practical scenarios. The feedback received was positive, with students appreciating the clarity and depth of the training.

Notice for Students
MBA I YEAR

Subject: - Regarding SIG

All the students of MBA I YEAR are hereby informed that their SIG (academic year 2023-24) is scheduled from 04/10/2023 (Wednesday) onwards on the topic "Advance Excel".

The following instruction must be followed: -

- 100% attendance is mandatory
- Timing must be followed strictly
- It is compulsory for all students.

(Mr. Hanish Kukreja)
SIG Coordinator

(Dr. Rishi Dubey)
Principal
Indore Institute of Management & Research
Opp. IIM, Pithampur Road,
RAU, INDORE (M.P.)

**Indore Institute of Management and Research
Basic and Advanced Excel SIG**

Importance of Excel SIG:

1. To help students understand basic excel functionalities
2. Skill building for the final semester students towards enhancing the employability quotient
3. Excel helps get stuff done in easy and efficient ways
4. Proficiency in excel helps in Major research projects and corporates

Course Description:

1. How to navigate the interface (3 hours)
 - 1.1. Introduction to Ms Excel Interface
 - 1.2. Customizing the Excel Quick Access Toolbar
 - 1.3. More on the Excel Interface
 - 1.4. Understanding the Structure of an Excel Workbook
2. How to use math, statistical, logic and text functions (5 hours)
 - 2.1. Working with the SUM() Function
 - 2.2. Working with the MIN() and MAX() Functions
 - 2.3. Working with the AVERAGE() Function
 - 2.4. Working with the COUNT() Function
 - 2.5. Using the AutoSum Command
 - 2.6. Excel's AutoSum Shortcut Key
3. How to find a value with VLOOKUP, HLOOKUP, INDEX, MATCH (4 hours)
 - 3.1. Creating effective spreadsheets
 - 3.2. Managing large sets of data with ease
 - 3.3. Mastering the use of some of Excel's most popular and highly sought after functions (SUM, VLOOKUP, IF, AVERAGE, INDEX/MATCH and many more)
4. How to sort and filter your data (3 hours)
 - 4.1. The filter tool gives you the ability to filter a column of data within a table to isolate the key components you need.
 - 4.2. The sorting tool allows you to sort by date, number, alphabetic order and more. In the following example, we will explore the usage of sorting and filtering and show some advanced sorting techniques.
5. How to work with charts (4 hours)
 - 5.1. Creating an Excel Column Chart
 - 5.2. Adding and Modifying Data on an Excel Chart
 - 5.3. Formatting an Excel Chart
 - 5.4. Moving a Chart to another Worksheet
 - 5.5. Working with Excel Pie Charts
6. How to create and format Pivot Tables (4 hours)
 - 6.1. Creating an Excel Pivot Table
 - 6.2. Modifying Excel Pivot Table Calculations

Handwritten signature: H. K. Raj

- 6.3. Formatting Pivot Table Data
- 6.4. Filtering Pivot Table Data

Duration of Course:

- 1. Classroom Theory - 24 hours
- 2. Practical and Practice Sessions - 25 hours
- 3. Assignments and Exam - 1 hour

Learning Outcomes of Students

After completing the course, students will be able to:

- 1. Indicate the names and functions of the Excel interface components
- 2. Construct formulas, including the use of built-in functions
- 3. Create and modify charts
- 4. Use Pivot Tables
- 5. Automate excel using Macros

This is a 40 hour course which will include classroom training, practice sessions, assignments and final exam. After the completion of the course, there will be a revision session followed by an exam.

9. Which one is not a Function in MS Excel ?

Mark only one oval.

- SUM
- AVG
- MAX
- MIN

10. Functions in MS Excel must begin with _____

Mark only one oval.

- An () sign
- An Equal Sign
- A Plus Sign
- A > Sign

11. Which function in Excel checks whether a condition is true or not ?

Mark only one oval.

- SUM
- COUNT
- IF
- AVERAGE

12. In Excel, Columns are labelled as _____

Mark only one oval.

- A, B, C, etc
- 1, 2, 3 etc
- A1, A2, etc
- \$A\$1, \$A\$2, etc.

Handwritten signatures: Ruben, Rub

Excel Certification Exam

31. Getting data from a cell located in a different sheet is called

Mark only one oval.

- Referencing
- Accessing
- Functioning
- None of them

32. Which function is not available in the Consolidated dialog box (list of data set)

Mark only one oval.

- Max
- Average
- Count
- PMT

33. In the formula, which symbol specifies the fixed columns or rows?

Mark only one oval.

- &
- %
- \$
- All of them

34. What does COUNTA() function do?

Mark only one oval.

- Counts cells having alphabets
- Counts selected cells
- Counts empty cells
- Counts non empty cells

Excel Certification Exam

39. Transpose can be done using:

Mark only one oval.

- Copy
- Copy special
- Paste
- Paste special

40. Which of the following is not a chart type in Excel

Mark only one oval.

- Line
- Bar
- Circle
- Pie

41. To delete blank cells, you need to use:

Mark only one oval.

- Sort and filter
- Find and select
- Sort and select
- Find and filter

42. Which of the following cannot be done using the data validation:

Mark only one oval.

- Reject invalid dates
- To limit the budget
- Validate a product code
- Conditional formatting

Reah

Hukry

21/07/24 12:35:19

Excel Certification Exam

43. To solve the following equation, there's a special function by the name: $(2 * 1000) + (4 * 250) + (4 * 100) + (2 * 50)$

Mark only one oval.

- Sum
- Product
- Sumproduct
- Productsum

44. To check if cell A1 and B1 have same text in same case, which of the following formula will be used.

Mark only one oval

- =A1=B1
- =Exact(A1=B1)
- =Exact(A1,B1)
- =Same(A1,B1)

45. To sum the values in a range that meet criteria that you specify, which of the following function is used:

Mark only one oval.

- Sum
- Sumif
- Nestedif
- Nestedsum

Handwritten signature

2:35 PM

Excel Certification Exam

46. To copy formatting from one area in a worksheet and apply it to another area you would use:

Mark only one oval.

- The Edit>Copy Format and Edit>Paste Format commands from the menu.
- The Copy and Apply Formatting dialog box, located under the Format>Copy and Apply menu.
- There is no way to copy and apply formatting in Excel - You have to do it manually.
- The Format Painter button on the standard toolbar.

47. What function displays row data in a column or column data in a row?

Mark only one oval.

- Hyperlink
- Index
- Transpose
- Rows

48. Which function calculates your monthly mortgage payment?

Mark only one oval.

- PMT
- NPER
- PV
- FV

Handwritten signatures: Rubraj, Reshu

2/16/24, 12:35 PM

Excel Certification Exam

49. How do you change column width to fit the contents?

Mark only one oval.

- Single-click the boundary to the left of the column heading
- Double click the boundary to the right of the column heading
- Press Alt and single click anywhere in the column
- All of them

50. To activate the "developer mode", you need to go to the :

Mark only one oval.

- Formulas option
- Review option
- Excel option
- Home option

51. In Excel 2007, "Comment" can be added to a cell through

Mark only one oval.

- View
- Review
- Formulas
- Insert

52. "Macros" can be enabled by activating the:

Mark only one oval.

- Developer Mode
- Formula Mode
- Expert Mode
- Excel Mode

SIG Completion Report : Advance Excel

Class : MBA 1st Year

SIG Duration : 40 hours

Resource Person : Mr. Hanish Kukreja

Objectives:

1. To provide students with advanced skills in Microsoft Excel for business and data analysis.
2. To enable participants to effectively use Excel tools for decision-making and problem-solving.
3. To introduce students to advanced functions, data visualization, and automation through macros.
4. To enhance students' efficiency in handling and analyzing large datasets.

Course Outcomes:

1. Students gained expertise in advanced Excel functions such as VLOOKUP, HLOOKUP, Pivot Tables, and Conditional Formatting.
2. Participants learned to create and interpret data visualizations using charts and graphs.
3. Students developed the ability to automate repetitive tasks using Excel macros.
4. Enhanced proficiency in data management and analysis, preparing students for professional roles requiring advanced Excel skills.

Enrollment Details:

- **Number of Students Enrolled:** 126
- **Number of Students Completing the Course:** 102

The SIG on **Advanced Excel** was highly successful, providing students with practical knowledge and hands-on experience in Excel. The sessions, conducted by Mr. Hanish Kukreja, were interactive and application-focused, helping students improve their technical competence in data analysis. Participants expressed positive feedback, highlighting the relevance of the training to their academic and professional aspirations.

SIG: Fundamentals of Spreadsheet Modelling

By: Dr. Reshu Agarwal

Session Plan

Importance of Excel SIG:

1. To help students understand basic excel functionalities
2. Skill building for the final semester students towards enhancing the employability quotient
3. Excel helps get stuff done in easy and efficient ways
4. Proficiency in excel helps in Major research projects and corporate

Course Description:

1. How to navigate the interface (2 hours)
 - 1.1. Introduction to Ms Excel Interface
 - 1.2. Customizing the Excel Quick Access Toolbar
 - 1.3. More on the Excel Interface
 - 1.4. Understanding the Structure of an Excel Workbook
2. Assignment 1 (2 hours)
3. How to use math, statistical, logic and text functions (6 hours)
 - 3.1. Working with the SUM() Function
 - 3.2. Working with the MIN() and MAX() Functions
 - 3.3. Working with the AVERAGE() Function
 - 3.4. Working with the COUNT() Function
 - 3.5. Using the AutoSum Command
 - 3.6. Excel's AutoSum Shortcut Key
4. Assignment 2 (2 Hours)
5. How to find a value with VLOOKUP, HLOOKUP, INDEX, MATCH (6 hours)
 - 5.1. Creating effective spreadsheets
 - 5.2. Managing large sets of data with ease
 - 5.3. Mastering the use of some of Excel's most popular and highly sought after functions (SUM, VLOOKUP, IF, AVERAGE, INDEX/MATCH and many more)
6. Assignment 3 (2 Hours)
7. How to sort and filter your data (4 hours)
 - 7.1. The filter tool gives you the ability to filter a column of data within a table to isolate the key components you need.

7.2. The sorting tool allows you to sort by date, number, alphabetic order and more. In the following example, we will explore the usage of sorting and filtering and show some advanced sorting techniques.

8. How to work with charts (4 hours)
- 8.1. Creating an Excel Column Chart
 - 8.2. Adding and Modifying Data on an Excel Chart
 - 8.3. Formatting an Excel Chart
 - 8.4. Moving a Chart to another Worksheet
 - 8.5 Working with Excel Pie Charts

8. Assignment 4 (2 Hours)

9. How to create and format Pivot Tables (8 hours)
- 9.1. Creating an Excel PivotTable
 - 9.2. Modifying Excel PivotTable Calculations
 - 9.3. Formatting PivotTable Data
 - 9.4. Filtering PivotTable Data

10. Assignment 5 (2 Hours)

Duration of Course:

- 1. Practical and Practice Sessions - 30 hours
- 2. Assignments: 10 Hours
- 3. Exam - 1 hour

Learning Outcomes of Students

After completing the course, students will be able to:

- 1. Indicate the names and functions of the Excel interface components
- 2. Construct formulas, including the use of built-in functions
- 3. Create and modify charts
- 4. Use Pivot Tables
- 5. Automate excel using Macros

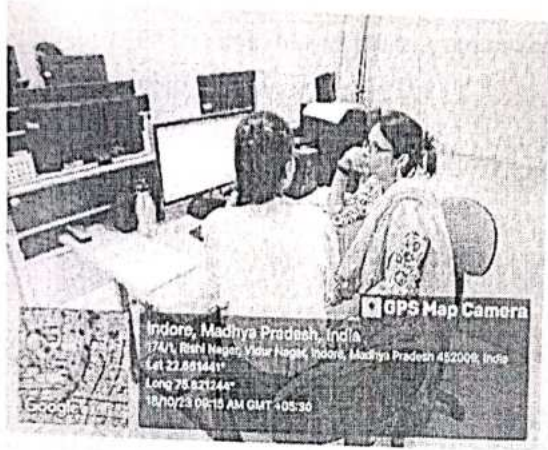

This is a 40 hour course which will include computer hands-on training, Assignment sessions, practice sessions, and final exam. After the completion of the course, there will be a revision session followed by an exam.

SIG Completion Report : Fundamentals of Spreadsheet Modelling

Class : UG 1st Year

SIG Duration : 40 hours

Resource Person : Dr. Reshu Agarwal

Objectives:

1. To introduce students to the fundamentals of spreadsheet modeling and its applications.
2. To develop proficiency in using spreadsheets for data organization, analysis, and decision-making.
3. To equip students with the skills to create dynamic models for solving real-world problems.
4. To foster analytical thinking and problem-solving through hands-on spreadsheet exercises.

Course Outcomes:

1. Students acquired a strong foundation in spreadsheet basics, including formulas, functions, and data validation.
2. Participants learned to design and use spreadsheet models for business and academic applications.
3. Students gained skills in analyzing datasets and presenting insights through graphs and dashboards.
4. Enhanced understanding of spreadsheet modeling as a tool for effective decision-making and problem-solving.

Enrollment Details:

- Number of Students Enrolled: 146
- Number of Students Completing the Course: 125

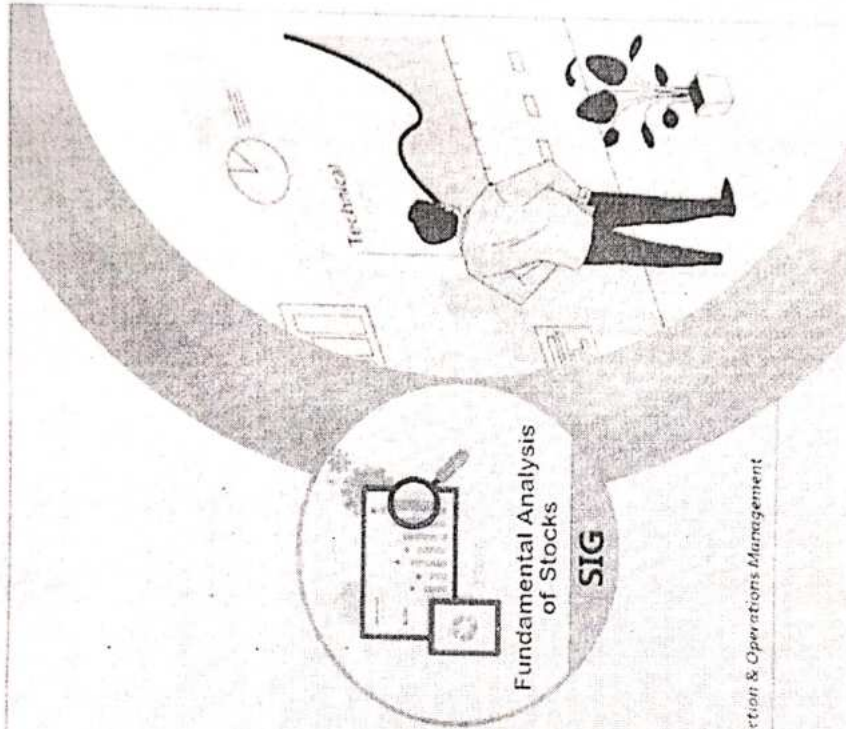

The SIG on Fundamentals of Spreadsheet Modelling successfully achieved its objectives by providing students with essential skills and practical knowledge. The sessions, led by Dr. Reshu Agarwal, emphasized interactive learning and practical application, enabling students to confidently use spreadsheets for various purposes. The training received positive feedback, with participants appreciating the hands-on approach and the resource person's expertise.

List of topics that need to be covered to introduce new skills to the students:-

- I. **An overview of the Indian & Global Financial Markets-2 Hours**
 - What drives the markets
 - Interrelationship between Financial markets, Banking & Insurance
 - Career options
 - Skill set required
- II. **Fundamental Research-14 Hours (including 6 hours of practical)**
 - Dow theory: the mother of research
 - Knowing the company
 - Understanding key terms & ratios like P/E, BV2P, ROCE, ROE, D2E etc.
 - Studying quarterly & yearly results
 - Balance sheet, Cash flows & Shareholding pattern
 - Digging deep: Annual reports, Conference calls & Investor presentations
 - Sectoral Analysis: News, Views & govt policies
 - Data Analysis & Economic indicators
 - Taking the decision
 - Practical analysis through app
- III. **Technical Research-10 Hours (including 4 hours of practical)**
 - Introduction to technical charts
 - Understanding the terminology
 - Candlestick patterns
 - Key indicators: Inbuilt & Programmable
 - Various chart patterns
 - Technical report writing
 - Practical analysis through app
- IV. **Portfolio Management: The next level in career-2 hours**
 - Basics and do's & don'ts
- V. **Other career options in financial markets-2 hours**
 - Compliance
 - Marketing of financial products
 - Training
 - Content writing & Video making
 - Skill enhancement: taking various certifications

6. Technical analysis can help investors anticipate what is "likely" to happen to _____ over time.

Mark only one oval.

- prices
- volumes
- economy
- intrinsic value

7. The study of technical analysis is based on which of the following elements:

Mark only one oval.

- qualitative analysis
- quantitative analysis
- stock price movement
- all of the above

8. Which of the following statements is true about price?

Mark only one oval.

- Price formations never repeat
- Price movements are totally random
- Price discounts everything
- Price never move in trend

9. Which of the following is not true about chart?

Mark only one oval

- it plot the price movements of a stock over specific time frames
- x-axis represents price and y-axis represents time
- it gives graphical representation of any stock's trading history
- it can give a complete picture of a stock's price history over a period of an hour, day, week, month or many years.

10. Which of the following best reveal psychology of the market at a certain point in time?

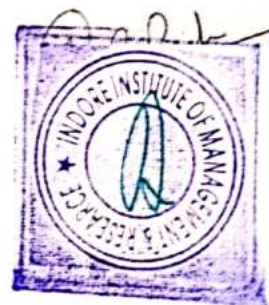

Mark only one oval.

- line chart
- candlestick chart
- pie chart
- none of the above

11. What does a decline below support level indicate?

Mark only one oval.

- there is lack of sellers
- buyers are pushing down the price
- there is lack of buyers and sellers willing to sell even at lower prices
- none of the above

12. Bulls bid ___ the price by increasing demand, bears take it ___ by increasing supply

Mark only one oval.

SIG Completion Report : Analytical Understanding of Capital Markets

Class : BBA 1B

SIG Duration : 40 hours

Resource Person : Mr. Gaurav Katariya

Objectives:

1. To provide students with a comprehensive understanding of capital markets and their functioning.
2. To develop analytical skills for evaluating market trends and investment opportunities.
3. To introduce practical tools and techniques for financial analysis in capital markets.
4. To prepare students to make informed investment decisions and understand risk management.

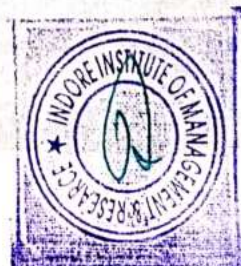

Course Outcomes:

1. Students gained an in-depth understanding of the structure and operations of capital markets.
2. Participants developed the ability to analyze market trends using various tools and techniques.
3. Students learned practical approaches to portfolio management and risk assessment.
4. Enhanced proficiency in applying theoretical knowledge to real-world financial scenarios, fostering confidence in making investment decisions.

Enrollment Details:

- Number of Students Enrolled: 52
- Number of Students Completing the Course: 46

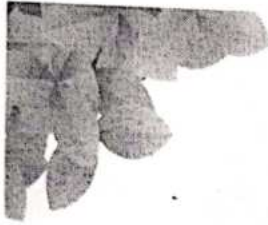

The SIG on Analytical Understanding of Capital Markets was conducted successfully, equipping students with valuable insights and practical skills. The sessions, led by Mr. Gaurav Katariya, were interactive and focused on real-world applications, enabling students to better understand and analyze financial markets. Feedback from participants highlighted the resource person's expertise and the relevance of the training content to academic and professional aspirations.

Confirmation by College to commence CPBFI Batch

To
Ms. Pallavi Gandhalikar,
National Head CSR, Head Bajaj Finserv BEYOND,
Bajaj Finserv Ltd., Pune.

Date: 10/01/2024

Dear Madam,

This refers to our MoU with Bajaj Finserv to conduct Certificate Program in Banking, Finance and Insurance (CPBFI) for the students and Alumni of our College/Institute.

We hereby provide our confirmation for the following batch formation details mentioned below:

Sr.No	Details	College Response
1	Our Coordinator for CPBFI has received a complete briefing about conduct of the CPBFI Batch from your official Training Partner and I am informed that he/she is fully aware of his/her role for successful execution of the Batch.	Yes
2	Mention total number of students enrolled. (Final list of students shared). Please close the Enrolment Link.	37
3	*As agreed in our MoU, the college has collected a non-refundable fee of Rs.1000/- specifically for CPBFI from every enrolled Student.	Yes
4	No First- or Second-Year Undergraduate student is admitted in the Batch.	Yes
5	As per current College Calendar no interruptions of more than 3 days are expected in the CPBFI Batch on account of upcoming examinations, Holidays, Placement Drives, Field Visits, other Training Programs etc.	I confirm
6	We have discussed the Batch timings with the enrolled students and the students have confirmed the suitability of the same. No student is expected to miss the Batch on account of Job/Internship/other Tuition Classes.	Yes
7	Students have confirmed that they have adequate equipment namely Smart Phones/Laptop/Desktop and sufficient Network Data to attend Online Classes and Online Mock Interviews during HR Workshop.	Yes

Thus, we confirm the Batch formation and request to launch the Batch as per mutually decided Date.
College to appoint 2 Student Coordinators for the Batch. Students to be from the Batch.

"Orientation Program CPEBI"

Report

Academic Year: 2023-24

Day of Event: 27-12-23

Time: 11:30 A.M. to 01:00 P.M.

Venue: HMR Uo Wing First Floor, Conference Hall

Faculty Coordinator: Dr. Vaibhav Modak

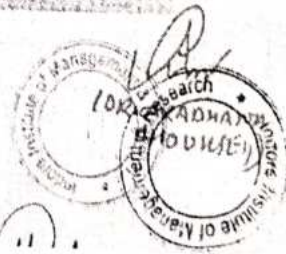

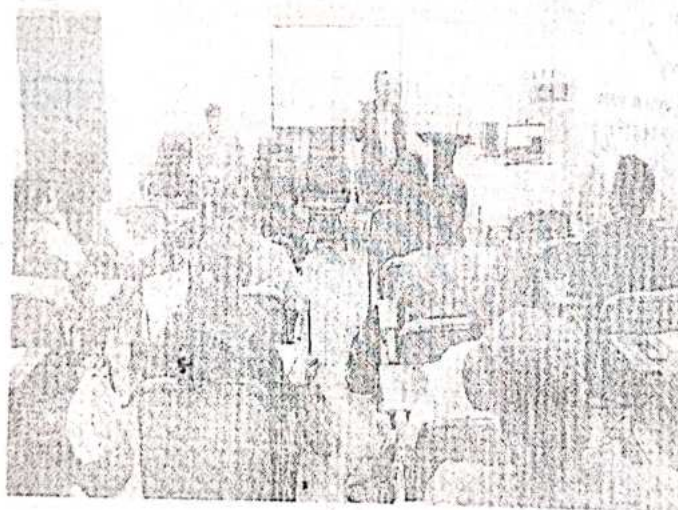

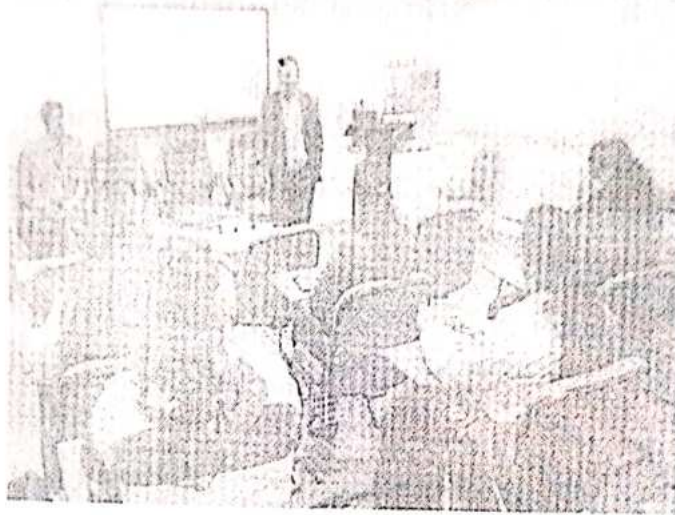

Guest Speaker: Mr. Ganjan Chandrayan

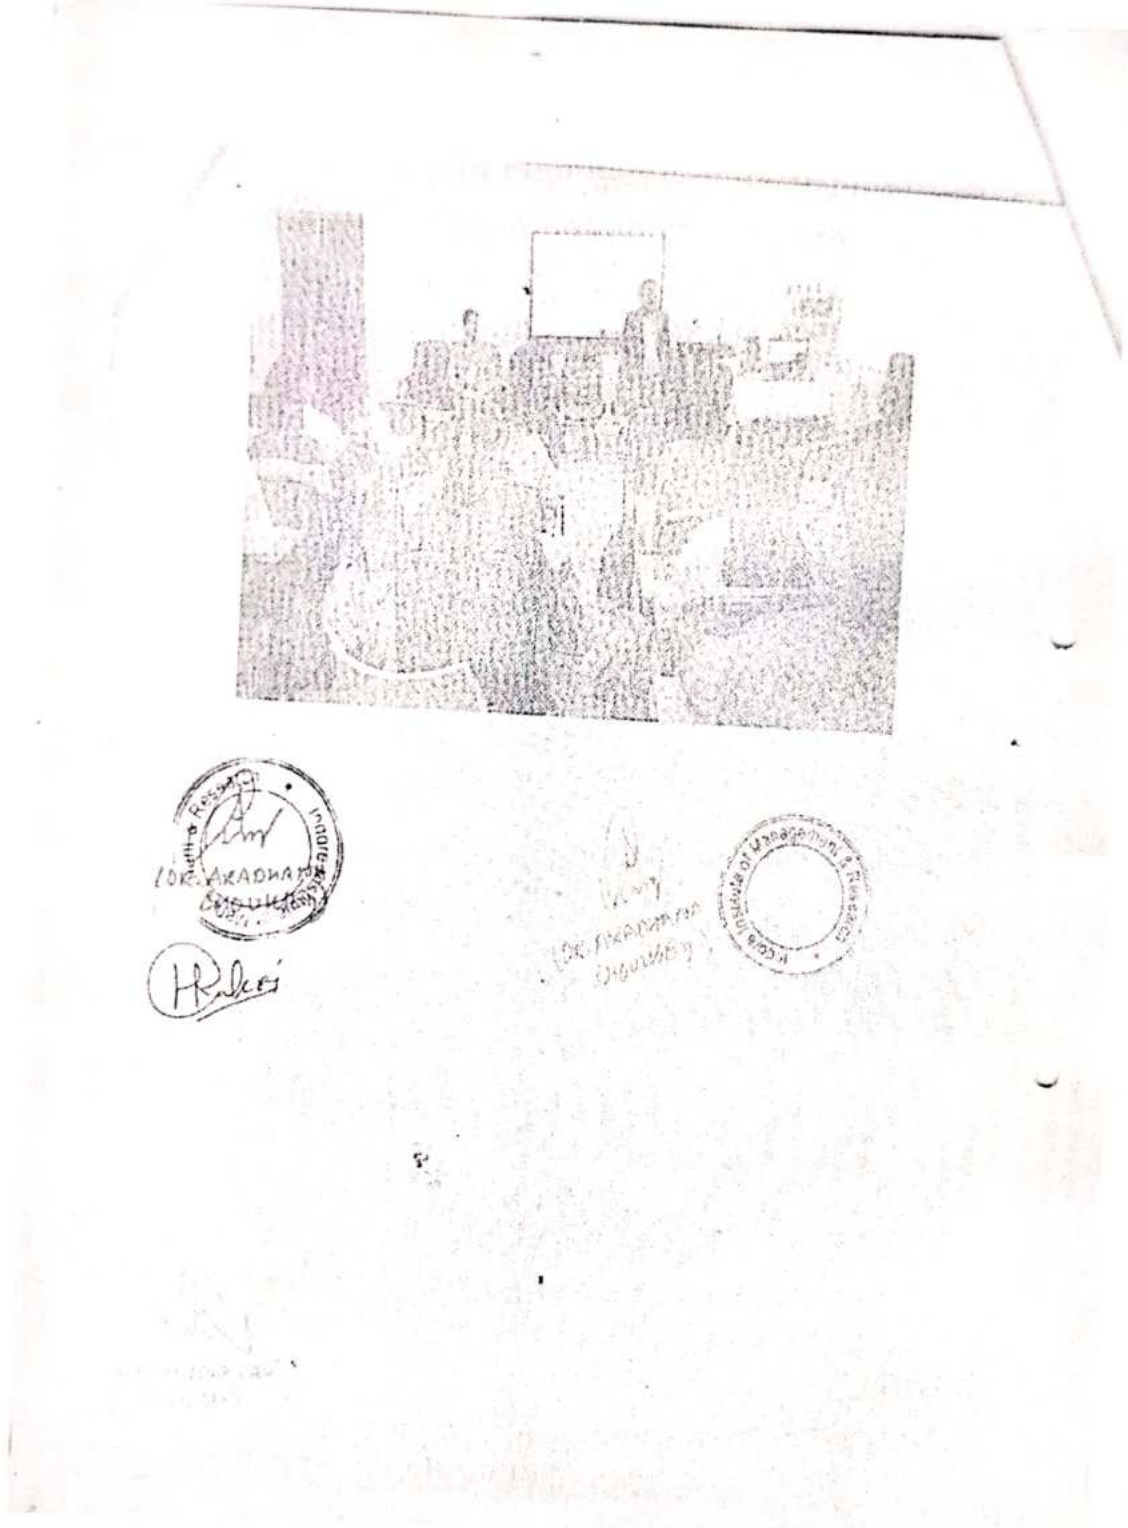

CPEBI is an Educational Project of Bajaj Finance Limited designed and developed as part of their CSR initiative and is focused at First Time Graduates from Tier II and III locations. The program is already running in 17 states in India and has partnerships with over 250 colleges across India. The program is offered in the form of a 96-hour certificate program in Marketing, Finance, Insurance and Managing Self.

With this aim to train our MBA students we have conducted an orientation programme to motivate the students to give information regarding the unique features of CPEBI programme and its placement opportunities. The chief guest of the programme Mr. Ganjan Chandrayan, Director Expressions & Corporate Initiatives interacted with the students and explained about positive thinking, body language, self-confidence, communication skills, all are the major factors for today's job world. He more emphasised on daily newspaper reading to be well ready to learn new things. He said that to getting a job is very tough but be on his ready to learn new things. Mr. Ganjan asked to the student's very basic questions related to general knowledge. He said that Every student should having aware about practical knowledge, awareness. As per expert what are the industry wants? What skills students have? Degree, Energy, Willingness to work, hardworking, sincerity, confidence, good command over communication skill, industry understanding etc. are the key skills required by the employer. On this occasion HMR Principal Dr. Anil Kumar Choudhary suggested to the students to give more focus on the industry (real) requirements. CPEBI programme coordinator Dr. Vaibhav Modak addressed to the students about the utility of CPEBI programme for career building.

The session ended well and overall, 55 students got benefited.

SIG Completion Report : Bajaj Finserv Certificate Program in Banking, Finance and Insurance

Class : MBA 3rd Sem

SIG Duration : 40 hours

Resource Person : External Trainers

Objectives:

1. To provide students with a comprehensive understanding of the banking, finance, and insurance sectors.
2. To equip students with practical knowledge and skills relevant to the financial services industry.
3. To introduce key concepts in risk management, financial planning, and insurance products.
4. To prepare students for careers in banking, finance, and insurance by bridging academic knowledge with industry practices.

Course Outcomes:

1. Students gained a solid understanding of the banking, finance, and insurance sectors, including industry practices and regulatory frameworks.
2. Participants developed skills in financial analysis, risk management, and understanding various insurance products.
3. Students were introduced to real-world scenarios and challenges in the financial services industry.
4. Enhanced employability skills in banking, finance, and insurance, preparing students for entry-level roles in the industry.

Enrollment Details:

- Number of Students Enrolled: 55
- Number of Students Completing the Course: 48

The Bajaj Finserv Certificate Program in Banking, Finance, and Insurance successfully met its objectives by providing students with practical and industry-relevant insights. The program, conducted by external trainers, offered interactive sessions and case studies that helped students connect theoretical concepts with real-world applications. Participants expressed positive feedback about the relevance and depth of the course content.
